FRIDAY APRIL 2nd, 1943.

NUMBER 48

Jacks Lose Games But Have Fine Trip

The Union Jacks returned home Sunday evening from their Edmonton trip, defeated in both games, but happy in the enjoyment of a nice trip and a fine spirit in both games. As reported they lost the first game Thursday night 67-44, and the second one Saturday night 49-40.

The boys had no alibis. The big floor, the superb condition of the Edmonton team, the injured arm of Turner, keeping him out of most of the play, all combined to the defeat. The officiating at both games was fair and unbiased, and all the boys said were they were beaten by a better team. After the second game the Edmonton team were hosts to the Jacks at a luncheon, where a wonderful time was enjoyed by all for an hour or so. On the Edmonton team were three or four men who had previously played against the Jacks in Dominion championship tilts, and they all enjoyed renewal of acquaintances.

The busy streets, crowded cafes, and overcrowded hotels of the capital city were things that struck the boys. Getting a hotel room was out of the question. In arranging accommodations for our fellows, the best Edmonton could do was rooms in the Y.M.C.A. Cafes are busy practically twenty-four hours a day, and it was reported that beds were even being made in hotel dining rooms, even though roomers had to be up and out of the room by six a.m. Trucks and busses are leaving continually for the north and for the south in the frenzied efforts to get the highway finished up and ready for the 'thaw'.

A. C. Ryan of Robinson Little Co, Winnipeg was at the Raymond Mercantile this week.

Sergt. Pilot Russell West, who recently received his wings at Dauphin, Manitoba, is home on leave for a couple of weeks.

Wedding Bells

WRIGHT — SNOW

A wedding of local interest was solemnized in March in the Cardston Temple when J. Wright of Beazer, and Miss Donna, daughter of Mr. & Mrs. Golden Snow of Raymond were united in marriage with Pres. Edw. Weed officiating. Members of both families were present to witness the ceremony, and to extend best wishes to the happy young couple.

After a short honeymoon the young couple will make their home in Beazer where the groom is engaged in farming. We join with their many friends in wishing them much joy and happiness.

MCNEELY — MEEKS

Miss LePreal Baker Meeks and Alden McNeely were united in marriage at the Meeks home last week, with Bishop L. L. Palmer performing the ceremony. Only relatives and a few very close friends were present to witness the ceremony and extend their wishes to the happy young couple.

The groom is the local Calgary Power representative, and they are setting up housekeeping here. With their many friends we join in extending best wishes for a long and happy married life.

Leo's Night Out

Leo's Night out last Friday, staged as an annual affair by the Lion's Club was its usual outstanding success. An advance ticket sale had been well patronized, and when time came for the commencement of the program, the following numbers were carried out, after which the floor was cleared & Cody's Seven furnished the music for a very enjoyable dance.

Community singing, with Aziel Stevenson conducting was followed by two readings by Miss James. The stooges assisted by their lady partners presented a comic skit, and then a burlesque of the song "The Fuehrer's Face" was presented by Jos. Streng, Jos. McLean, Jack Vanderhilt and Jim Weaver and was very comical and very well done.

A Fish Story

By Sgt. George T. Egee, RCAF, USA

Perhaps even now the natives are still talking about the 12 flying Sergeants that were out fishing in the glass bottomed ship, Gloris II, on Sunday past. Bright and early, about nine o'clock, these brave sea fearing gentlemen put their little feet aboard the good ship. Sergeants Hutchinson, Graber and Wiltshire were the idea men. Sandwiches were the eatables. 'Cokes' were the only liquid consumed. Surprising enough everyone's thirst was well quenched.

The fun started about ten thirty when all of the lines went into the water and the bait came in view through the glass bottom. There seems to be a great thrill watching fish "sneak up" to the bait, which was Conch, and try to take it for a ride only to be taken for a ride themselves (no bullets used).

The catch was rather large and of good variety including of course two lovely barracuda with pretty white Pepsodent teeth. One got away, a big one probably the biggest of the day (don't they always?). Sgt. Thom plink pulled it up and it came off the hook on the deck. None of the boys wanting to lose any appendages, or weight, they all stood clear and watched it hop around until it got a clear jump into the blue-green. The other was actually taken control of by Sgt. Fenton and added to the catch.

"The mess" was strung up on a rope about six feet long and was gazed at admiringly by a large gathering of natives at the dock, when the Gloris II came in. Having seen enough fish to last them until at least next fish day the Sergeant made a donation of the catch to the natives, who were well pleased about the whole thing, and so were the Sergeants. It all ended happily and probably will be done over in the near future. Right now the twelve are interested in a good sunbath.

The above "fish story" is from the Nassau Chronicle, in the Bahama Islands and was sent to us by Sergt. Arthur Hutchinson who is stationed there. "Art" is well and as brown as any of the natives, and wants to be remembered to all his friends in Raymond. He is the Hutchinson mentioned in this report. Ed.

Hospital Report at Board of Trade

The Board of Trade meeting as a post war scheme. The resolution was endorsed and turned over to the Roads Committee. The following slate of officers was unanimously elected for the coming year: Pres.—J. W. Evans. Vice-Pres.—John Samson. Sec.-Treas.—J. O. Hicken. Committee Chairman: Membership—J. D. Hall. Roads & Town Improvements—Frank Taylor. New Industries—A.W. Jones. Program and Entertainment—S. I. May. Stampede—L. D. King. Resolutions—Dr. F. M. Hall. These Chairman will choose what other members they may need to assist them in their work.

In a few closing remarks the President suggested that during the present year we all lend our support to every movement that will make for a bigger and better Town and district, and especially boost and work for the Cheese Factory which is getting away to a very good start, and for the proposed Municipal Hospital which would mean so much to the Town and district. The meeting adjourned at 9:45 p.m.

NEWS NOTES

Mr. and Mrs. Lee Brewerton were Calgary visitors the first of the week, returning home Monday evening late.

Geo. Brewerton and Dr. Hall went to Calgary on business Monday returning home Tuesday evening.

Rayo Wolf was under the weather over the week-end with a very bad cold. He is around again now but his voice is still unusually husky.

Gleaners and M Men of the Raymond 2nd Ward held their fireside meeting Sunday evening at the home of Bishop and Mrs. L. L. Palmer.

Speakers at the Raymond 2nd Ward Sacrament meeting Sunday evening were Elders Paul Fairbanks and Jas. S. Anderson. A good crowd was present and listened to two interesting talks.

Herb Wilde, who has spent the past two months or so on the Alaskan highway returned home last Friday night. Herb wore a chin beard and mous tache home, and said these decorations were not worn for fun but for protection. Herb said that on the day he left to come home the thermometer was at 72 below. And we nearly croaked when it touched a mere 45 or 50 here.

Fine Showing in Stamp Sales

In the first three months of 1943, from Jan. 4th to March 31st, the Public School Students have purchased War Savings Stamps to the value of \$503.25. This is certainly a fine showing and students and teachers are to be highly commended for their combined efforts to make this total. When the total enrollment is only 509, and a percentage of them not included in the list of purchasers, it makes

the showing all the more worthwhile. Since the beginning of the fall term last September, the total Stamp sales have been \$658.00. We think this is a very fine showing for our school, and add to this the stamps that have been purchased by students aside from those bought at the school, and we have a very fine total. Congratulations to students and teachers.

Canning Sugar Applications

Canning sugar application forms, when properly filled out should be left with D. M. Holladay at the Municipal Office, who will forward them to the proper officials for them to be acted upon.

We may remind housewives that these applications must be filled out before April 15th stating amounts of sugar required for canning needs.

Municipal Council Meeting

The Municipal Council in special session Tuesday appointed A. J. Garner as Road Foreman for the present year and Lynn Turner of Magrath as Assessor.

Paul Moreland of New Dayton was appointed to the Provisional Board of the Municipal Hospital set up.

Two by-laws were introduced and given their first & second readings: one to levy a personal property tax in the district, and one to set the tax discount at 5 p.c. on all taxes paid on or before December 15th. The regular Council meeting will be held the second Tuesday in April.

First Aid Classes Finish Another Year

The training in first aid to the injured initiated at Raymond in 1938 has grown up into an indispensable part of the safety system at the Sugar Factory. In co-operation with the Factory management, the plant Safety Committee has been taking the initiative in maintaining the interest in first aid instructions since that date. Both parties are strong believers that men qualified in first aid carry on their work with greater safety than those who have no first aid training at all. The primary objective of the training is, of course, the provision of qualified first aid workers throughout the organization for any emergency need.

Besides the Factory workers the opportunity of receiving the first aid instructions have incidentally been extended to senior Scouts and other parties of the town and district.

As in the past, under the auspices of the St. John's Ambulance Association in co-operation with the Compensation Board of Alberta, a class of 25 was started this year on Feb. 17th, and brought to a successful conclusion on March 26th, when all were examined by Dr. Madill and found to be well qualified for various awards. The lectures, together with practical instructions were held twice a week i.e. on Wednesday and Friday in the Town Hall.

As a token of appreciation on the part of the entire class presentations were made to Karl Schneider, Charles Tilkack, both lecturer and examiner after the examination. Both responded with thanks and congratulated the members on the achievement in knowledge of first aid.

The entire class deeply appreciate the fact that in spite of the transportation inconveniences, Mr. R. Christie, Superintendent of Mine Rescue Station of Lethbridge, who was the lecturer-instructor, has been coming to Raymond on the Bus and has to wait patiently before and after the lectures until picked up by his son coming from Lethbridge for this purpose.

After the examination, Mr. Christie demonstrated his method of transporting seriously injured such as with spinal pelvic or similar fractures. Under this method the injured, after receiving necessary first aid treatment, is carefully rolled on the board until placed on bed in hospital. Danger of aggravating injury during transport and handling from one point to another is thus reduced to a minimum. The method drew favorable comments from Dr. J. S. Madill, the examiner who passed remarks that the method appears to be one of the simplest and safest he knows.

Following this demonstration, Dr. Madill gave some information on blood classification for transfusion purposes. This information was sought previously in connection with the Air Cadet work and Dr. Madill took the opportunity of conveying the information to the parties interested.

The information was found educative and valuable in view of the important part the blood transfusion plays now in saving lives of our fighting men and also in connection with Red Cross present campaign for blood donations.

In conclusion Dr. Madill stressed the fact that in the modern first aid to the wounded in the field, treatment for shock is the most vital part

that may be administered to the wounded in order to save his life.

It may be regretted that notwithstanding the fact that there are a number of the trained first aiders in this town, yet there is not any permanent organizations of first aiders in existence. It should be realized that the need for preparedness for any emergency is far greater now than ever before. Organized first aid teams could work in connection with the local fire brigade benefitting the entire community. However it is gratifying to note that ladies of the town became so interested in studying first aid that a women's class is being conducted now by R. Christie who has become popular as an instructor in this town.

The following is the list of the first aiders examined.

Six years training entitled for Label Award.

Jack Blaskovits, Cecil Finch, John Landysheff, John Miller, Valdemar Piepgrass, Allen Watson.

Five years training entitled for Label Award.

Stanley Greep, Wilford Mel-drum, Wilford VanOrman.

Fourth year training entitled for Label Award.

John Housley, Owen Larsen, Alexander Smith.

Three years training entitled Award, Medallion

Kay Redd, Junius Anderson, Karl Schneider, Charles Tilkack.

Two years training entitled Award, Voucher.

Norman Christensen, Ray Overn, Alden McNeely, Karl Gehmlich.

One year training entitled Award, Certificate.

Arthur Atwood, Stanley Lin-itaki, Evans Sabey, Warren Jones.

Miss Iona Piepgrass, stationed at Vermilion, arrived home at the end of last week on leave.

Allan, son of Mr. and Mrs. Bob Heggie is slowly improving after a very serious illness from a relapse after the flu. He has been unconscious for most of the past two weeks.

Miss Hazel McBride, who has been suffering from an injured bridge Thursday morning, and knee was operated on in Leth-bridge is progressing nicely.

Silver Wedding Anniversary

Mr. and Mrs. Reg Cooper were agreeably surprised Sunday evening when "the gang" surprised them by calling for the observance of their silver wedding anniversary. The visitors brought "eats" with them, and after an hour or so of visiting and games the sandwiches, salad, ice cream, cookies and cake with punch were served, and everyone had their fill and then some.

Mr. and Mrs. Cooper were the recipients of a lovely set of Pyrex ware. Amongst those present were Mr. and Mrs. Velv Heggie, Mr. and Mrs. Dean Heggie, Mr. and Mrs. Golden Snow, Mr. and Mrs. Merrill Nielson, Mr. and Mrs. Athol Cooper, Mr. and Mrs. Fred Ralph, Mr. and Mrs. S. I. May, Mrs. Loren Larson, Mrs. Enid Hass and Mrs. Donny Nilsson.

DON'T PASS UP THE OPPORTUNITY

The Hospital Committee has done a good job in the preparation of the Hospital Bill. But we believe that to enforce a Stray Pound law during the fall and winter months after crops are threshed, and when stock can garner a great deal of feed from the fields is not a good move.

There should be no question about the economy and service of a Municipal Hospital District. There are 26 or 27 now in the district and more are organizing all the time. An analysis of these districts shows them to be successfully carried on, rendering service to the rich and the poor, the old and the young and filling a great need in every district they serve.

Let us be sure that we lend all possible aid to the movement here. Meetings will be held, which should be well attended to learn more of the proposition. A vote will be necessary and we should all make it our business to be sure that our vote is cast, and that it is cast in favor of the scheme. To nullify what has been done through a lack of information or carelessness on our part would be to let pass a real opportunity in community service and building on our part.

A. W. Jones and S. I. May made a trip to Warner on Saturday to meet with the Warner Municipal Council and discuss further the proposed Hospital set up, which is progressing favorably.

CORRESPONDENCE

Raymond, April 1, 1943
To the Editor:
Will you kindly allow space in your columns for the following.

Last week a Notice was published of a by-law to create the entire Municipality into a Stray Pound district for the entire year. We would like to call the attention of all interested to this Notice and personally to register our opposition to the move.

We are feeding a great many livestock each winter, and to have fences that will not let an animal out occasionally is next to impossible. Let us have a Pound law in the spring and summer when crops are growing and need protection, but not during the months when the fields are pastured for feed.

If anyone desires, a petition for signing may be found in the News Office, asking an amendment to the proposed by-law. Think it over Mr. Taxpayer and Stockman.

Yours truly,
J. E. Maudsley

Mr. and Mrs. Gordon Brewerton of Cardston were Raymond visitors on Thursday.

Mrs. Jas Hawkins received a cable from her son Gerald this week announcing that he was in England and feeling fine.

O. H. and Golden Snow, and Bishop L. L. Palmer are in Salt Lake City for Conference having left on Wednesday.

NEWS NOTES

Work in the field started on a few farms east of town Thursday afternoon.

Mrs. Max Matkin and baby of Cardston is visiting with relatives and friends in Raymond.

Raymond and Magrath High Schools played an exhibition game of Basketball Saturday night, the Magrath team winning. The game was followed by a dance.

Raymond 2nd Ward have plans laid to clean the Church House from basement to the top, the various organizations have all been assigned a portion of the cleaning to do.

With the frost coming out of the ground, highways are cutting up and bans to heavy loading have already been put on in most sections of the Province.

Miss Ina Jones was a bus passenger to Lethbridge Wednesday to visit her mother in the Hospital there. We are very pleased to report that Mrs. Jones is steadily improving and is expected home this week end.

Oil dealers report good business Wednesday, a car & truck owners were cashing in the balance of their 1942-43 coupons before they were outlawed at 7 p.m. that night.

Andy Noel has a broken collar bone as a result of a horse he was harnessing pushing him into a post. He will be laid up for at least two weeks, and right at the busiest time.

Mr. and Mrs. Floyd Zemp have moved back from Picture Butte and Floyd expects to have the cast removed from his foot and ankle in about two weeks time.

The air feels springlike and rakes are coming out of storage as lawns are showing green through the dead grass and the trees are commencing to bud.

Principal Hicken reported to us Thursday that in a fire drill held that morning, the Public School was cleared of its total enrollment, from 15 rooms in just a little less than two minutes.

A. W. Jones, J. D. Hall and S. I. May were in New Dayton Wednesday evening to a meeting called for an open discussion of the Hospital Unit plan. A very good meeting was held, a number of questions asked and a real spirit of co-operation shown in the plan.

At Rotary meeting Monday Louis Brantley was initiated as a member into the local Club. Doug Allen entertained with a couple of guitar numbers, and a discussion respecting meeting times and places followed. Nothing definite was decided, the Executive being charged with the responsibility of effecting arrangements for the Club.

Seed Treatment

Two problems are important at this time of year:

1. Is seed treatment necessary?
2. What is the best treatment?

Unfortunately, direct answers to these questions are impossible. We can dispose of the second one fairly briefly, however. The following resolutions were agreed upon by plant pathologists from all three provinces at a meeting held in Olds, Alberta, last summer:

1. That the use of formaldehyde for the treatment of wheat and other hullless seeds be discouraged in every way possible.
2. That organic mercury dusts be recommended for the treatment of wheat, oats, barley and flax, and that treatment be at least 24 hours prior to seeding.
3. That if formaldehyde is used at all, it should be limited to the treatment of special lots of smutty hulled oats.

Now for question 2. Local authorities in Alberta advise treatment of all cereal seeds.

In Manitoba, farmers are advised to treat all flax and barley seed, using 1½ ounces of mercury dust per bushel for flax and ½ ounce for barley. Of course smutty wheat and oats must be treated; but, in the absence of smut, we lack official advice.

In Saskatchewan we are told that "if seed is not known to be free from smut it should be treated." The same authority, Dr. R. C. Russell continues: "Occasionally, however, when the seed coats are badly cracked or a high percentage of the seeds carry a fungous parasite, which causes common root-rot, treatment with a mercurial dust may be beneficial." (Italics ours).

Send enquiries to Dominion Laboratories of Plant Pathology at Edmonton, Saskatoon and Winnipeg.

Men, Women Over 40

Feel Weak, Worn, Old?
Want Normal Pep, Vim, Vitality?
This week, find out! Examine your condition. You feel tired, listless, run down, after 40 or 45. Supplies iron, calcium, phosphorus, vitamin B1. Helps you get normal pep, vim, vitality. Indispensable for all good drug stores everywhere.

This Could happen to you!

What would it mean if it did?

OVER and over again, it's the lack of proper lubrication that causes costly breakdowns to farm machinery and damage to parts that may be difficult to replace. There is no need for this to happen to you. For, you can easily obtain a regular supply of the famous McColl-Frontenac farm lubricants from the McColl-Frontenac Representative in your district and avoid loss of time, money and even your equipment itself!

There is a McColl-Frontenac petroleum product made to meet the lubrication requirements of every piece of equipment on your farm.

Here are four that will definitely help you to keep your machinery in perfect working order.

RED INDIAN MOTOR OIL and RED INDIAN AVIATION MOTOR OIL

Here are two great oils that will lengthen the life of any engine. They ensure full power and economy under all operating conditions. These finer oils combat acid corrosion, friction, waste and wear. They stand up under highest engine heat... they flow and lubricate the moment the engine starts.

TEXACO MARFAK For Wheel-Bearings and Vital Friction Points
This famous lubricant lasts longer and lubricates better under the toughest working

URSA X** (CANADA)
The Perfect Motor Oil for Diesel and Heavy-Duty Gasoline Engines.

Highly resistant to the formation of gum, sludge and carbon; Urta X** (Canada) keeps rings, ring grooves, valves, screens and filters clean; Provides maximum bearing protection. Ensures full power and lower fuel consumption.

CHICK BUYERS

Be wise Place your order now and get your Chicks, sexed pullets or cockerels when you want them.

Don't be disappointed this coming season, like many were last season. Now hatching. Send for new colored catalogue and prices.

PROVINCIAL HATCHERIES

Ph. 25734, 10639 — 101st St., EDMONTON, Alta.

Last season eleven acres of sunflowers of the Sunrise variety were grown at the Lethbridge Experimental Station. They were grown in plots of different sizes on both dry and irrigated land. On account of the favourable season the dry land plots yielded quite high; in fact higher than those on irrigated land. The dry land crop yielded 1160 pounds per acre and the irrigated 990 lbs. Birds damaged the entire crop to a considerable extent, and the damage was considerably higher on irrigated land on account of the proximity to trees.

This season only the Mennonite variety will be grown in Alberta. This is an earlier and therefore, safer variety for Alberta conditions. Seed for approximately 850 acres is available. The Dominion Government is not having this seed produced under contract this season, but is selling it to farmers at eight cents per lb. Nothing definite can yet be stated regarding the value of the crop next fall. There may be some reason to expect that it may bring about five cents per pound but this is purely conjecture.

Sunflowers should be sown in rows about three feet apart at approximately seven pounds per acre, and in normal seasons, between the first and tenth of May. The ordinary grain drill can be used where a corn planter is not available. Weeds must be kept under control; consequently the question of cultivation must be settled before seeding is done. If a corn cultivator is not available

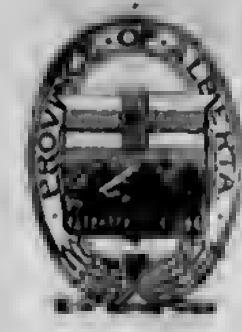

HERE'S WHAT TO DO

- 1 You can take your fat drippings, scrap fat and bones to your meat dealer. He will pay you the established price for the dripping and the scrap fat. If you wish, you can turn this money over to your local Voluntary Salvage Committee or Registered Local War Charity, or—
- 2 You can donate your fat dripping, scrap fat and bones to your local Voluntary Salvage Committee if they collect them in your community, or—
- 3 You can continue to place out your Fat and Bones for collection by your Street Cleaning Department where such a system is in effect.

WEEKLY LETTER
SUNFLOWERS FOR OIL

When the Japanese entered the war Canada's supply of vegetable oil from the Orient was cut off. Crops that were of any importance from the standpoint of oil production, naturally began to receive attention in Canada, and sunflowers have been one of the most important of these so far as the prairie provinces are concerned. Experiments conducted last season on Dominion Experimental Stations on the prairies showed that in the southern parts of these provinces this crop can be grown fairly successfully. It is estimated that it would require 100,000 acres of sunflowers to supply Canada's requirements of sunflower oil this season, but unfortunately seed for only about half that acreage is available. On the other hand it should be pointed out that the capacity of processing plants for the extraction of the oil is very limited in Canada.

HOW TO FILL OUT YOUR APPLICATION
FOR CANNING SUGAR

This year housewives must estimate in advance the amount of sugar required for canning and jam-making, so that arrangements may be made to provide and distribute the necessary supplies. Applications must be sent in to your Local Ration Board by April 15th. Use the application in your new Ration Book for this purpose.

Canning sugar will be allowed for all fresh fruits, including citron and wild fruits. Marrow, tomatoes and pumpkins are considered as vegetables and no canning sugar will be allowed for them.

HOW TO FIGURE OUT THE AMOUNT OF SUGAR NEEDED —

CANNING

Allow 1/2 lb. of sugar for each quart sealer.

Estimate the TOTAL number of quart sealers you plan to put up — then use the quick, practical method of allowing 1/2 lb. of sugar for each quart sealer. Don't try and decide exactly the number of each kind of fruit you plan to put up. Some fruits may be more plentiful than others. Base your estimates on the number of sealers you have on hand, what you put up last year, or what you think your needs will be this year.

Your completed application must be sent to your Local Ration Board by

JAM or JELLY MAKING

Allow 1 1/2 lbs. of sugar for each quart of jam or jelly.

Most people use jars of various shapes and sizes. Take a number of the jars you usually use and see how many cups of water they hold. Four (4) cups make a quart. In this way you will be able to estimate the number of quarts of jam or jelly your jars will hold. Then allow 1 1/2 lbs. of sugar per quart for your requirements. For example, for 8 quarts of jam or jelly, you will require 12 lbs. of sugar.

Estimates based on these methods are within the canning sugar ration, and the amounts are satisfactory for wartime canning and jam and jelly making, as proven by test in the Dominion Department of Agriculture experimental kitchens.

IMPORTANT NOTE

The Dominion Department of Agriculture recommends canning fruit in preference to making jam or jelly because:

More fruit can be put up with less sugar and at less cost.

Canned fruit retains more of the vitamin value of the fresh fruit.

WHEN AND HOW CANNING SUGAR WILL BE MADE AVAILABLE

When your Local Ration Board has reviewed your application you will be provided, sometime before June 1st, with special canning sugar coupons. These coupons will entitle you to buy sugar, at any grocery store, at specified intervals. You do not have to buy all your sugar at once.

COMPLETE AND SEND IN YOUR APPLICATION BEFORE APRIL 15

Complete your application form as shown in the illustration and mail it to your Local Ration Board not later than April 15th. Attach the application forms from the ration books of the other persons you will be feeding in your household. Do not write anything but the serial numbers of the owners on these other forms. Simply copy the serial numbers from the front of their ration books on to their application forms and pin them to your own fully completed application.

In estimating your canning and jam-making requirements, storage space should be carefully considered. Poor storage may cause spoilage and waste. Canned fruit should be kept in

a cool, dry, dark place. Don't use canned fruits on your table when fresh fruits are available. Plan to use your home-canned fruits in the winter months only.

Remember—False Statements are Subject to the Full Penalty of the Law

RATION ADMINISTRATION

THE WARTIME PRICES AND TRADE BOARD

and a field cultivator is to be used it will be necessary for the farmer to decide the number of rows he can cultivate with one stroke of his cultivator and arrange his seed drill to seed the same number of rows in a similar manner as the sugar beet grower does; i.e., who uses a four-row seeder if he has a four-row cultivator, or a six-row cultivator. Most of the small combines can be used satisfactorily for harvesting after a few minor alterations are made.

NEWS NOTES

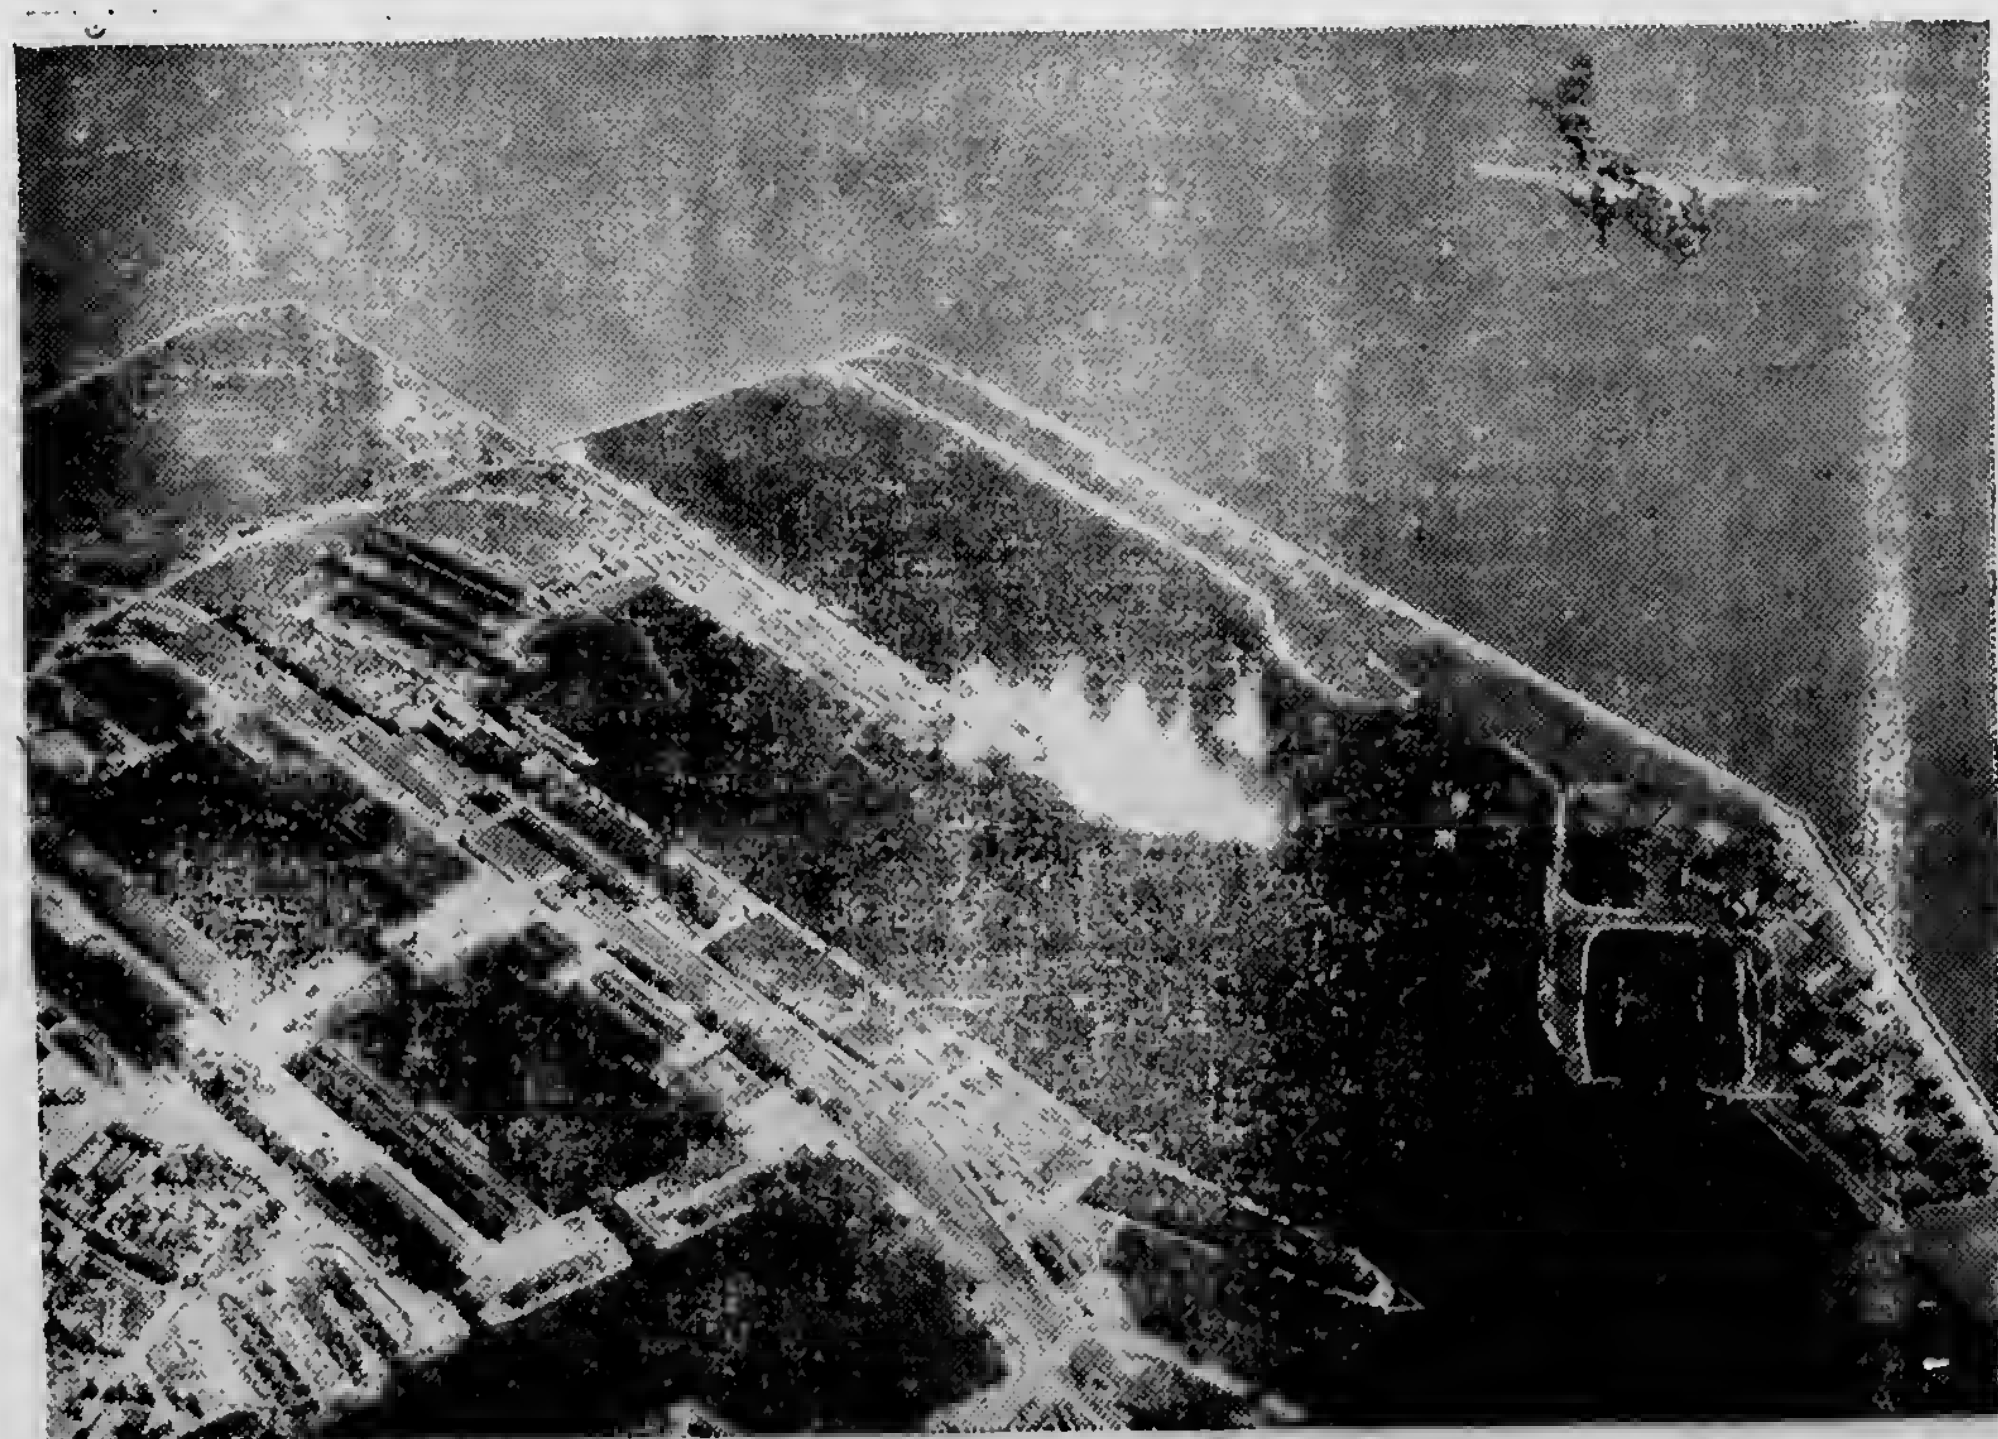

Owen Melverton Witbeck has recently enlisted in Canadian Active Army at Calgary and has gone into training.

Auditors were at the local Treasury Branch Thursday and Friday in the periodical audit of the books of the Branch.

Baby chicks are arriving each train now, and from reports we are going to really have some egg production in Raymond this coming winter.

Cheese was made at the local Cheese Factory Friday, Saturday and Monday, while the Pur-

ity Dairy in Lethbridge were moving to their new location and were unable to handle the guests of Mr and Mrs Jas. milk shipment. Monday the Hawkins for an afternoon visit. total milk deliveries totalled it and supper on Thursday.

U. S. Boston Bomb Le Havre --- Picture
Made During Daring Daylight Attack

Picture made during an actual daylight attack shows: one of a force of U S Boston Bombers over Le Havre docks. The first stick of bombs released during the attack can be seen bursting on the Western End of the quay tons were escorted by fighter planes of the U S Army Air Forces. E boat and R boat pens are situated. During the attack, which

CADET CREDIT FOR FARM HELP

The Royal Canadian Army Cadet movement will co-operate in every way possible with the farming and other essential war industries, according to an announcement by Col. C.G.M. Grier, E.D., Director of Royal Canadian Army Cadets. Col. Grier said arrangements are being completed whereby cadet of service for a period on a credits may be earned by virtue farm or in some war industry.

"In view of the need for boys on farms and for other war employment in the summer months, any experience gained in cadet subjects will receive due credit," said Col. Grier.

"For example, a cadet working on a farm will probably learn about woodcraft, field engineering & engines—subjects

Our first rain of the spring came Monday night, followed by a skiff of snow. It is reported that the ridge country had quite a thunder storm that evening.

usually associated with cadet summer camps. So if the lads feel the urge to work on farms instead of attending camp they do so with our blessing.

"We don't want cadet camps to interfere with the war effort, farming or other industry," said Colonel Grier.

Squadron Leader L. A. Nickalls, now R.A.F. Public Relations Officer in Canada, was with the men of the R.A.F. Bomber Command for nearly three years. This former London newspaperman will tell Canadian listeners something about life on the ground and in the air with the bombers home based in Britain. He will give the first of four talks over the CBC National Network on Wednesday, March 24 at 9:15 p.m. CDT. 8:15 p.m. MDT, from Ottawa.
